Intelligent Vehicle Damage Assessment and Cost Estimator for Insurance Companies

10 minutes to prepare
1 hour to collaborate
2-8 people recommended

Nowadays, a lot of money is being wasted in the car insurance business due to leakage claims. Claims leakage Underwriting leakage is characterized as the discrepancy between the actual payment of claims made and the sum that should have been paid if all of the industry's leading practices were applied. Visual examination and testing have been used to may these results. However, they impose delays in the processing of claims.

- If possible, be visual.

2 Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

TIP
You can select a sticky note and hit the pencil [switch to sketch] icon to start drawing!

ANUMALA VENKATESH

- Vgg model used to solved at the problem
- Real time more amount of money leakage so overcome to this project
- Machine learning used to solved at problem easy
- Image processing Vgg model was find the damage parteasy
- That website was customer easy to access to developed
- Terms and Conditions should accessible to any OS
- We must give the user authentication ID
- We have to maintain the user database
- We should avoid privacy theft of the user
- We should redirect the user to authorized Insurance companies

REDDEMI MANOJ KUMAR REDDY

MURABOINA THIRUPATHI RAJU

- Neural network extracting image feature
- Identifying the damage severity using CNN
- With the help of the image we can detect the dent
- With the help of Artificial Intelligence we provide easy estimations about damage
- Accuracy and transparence in pricing car and their potential repairs
- Accuracy and transparence in pricing car and their potential repair
- With the help of Artificial Intelligence we avoid fraud estimations
- With the help of Artificial Intelligence we provide easy estimations about damage
- Images are clearly detected using VGG mode
- Car model detection

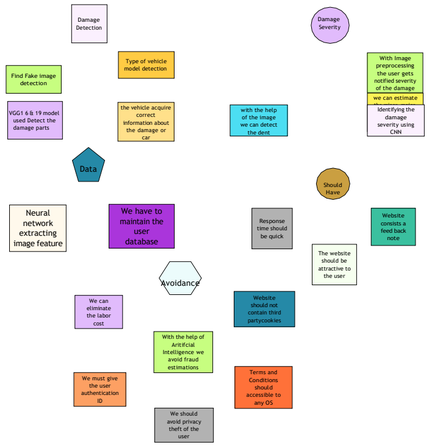
- With the help of Artificial Intelligence we avoid fraud estimations

3 Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

20 minutes

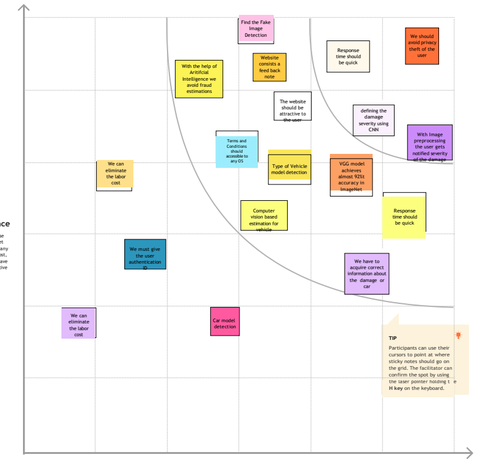
TIP
Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.



4 Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes



TIP
Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the user pointer hotstring ! e H key on the keyboard.

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

Quick add-ons

Share the mural
Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.

Export the mural
Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

Keep moving forward
